

Working with Inelso was a game-changer for us. We work on many aspects of online learning delivery for clients, and knowing that the INELSO team are always there and able to scale to our ever-changing requirements enables us to take on any client project with complete confidence in terms of quality and timely delivery.

They have an amazing work ethic and are always ready to jump on a call to give advice and suggestions. We also know that each project, no matter how daunting at first, will be certain to be great fun to work on as collaboration with them is a delight. They are highly creative and also really open taking on seriously creative challenges.

INELSO choose great team members with a wide range of expertise and specialisms. They suggest new approaches while also being very open to ideas and trying out new suggestions. They keenly seek feedback and have an appetite for learning from their clients. This helps us all constantly evolve how we are able to deliver products together that exceed our clients' expectations. In fact I delivered an animated video project to a client this morning and the response I just received was: "So exciting to see this!!! We love it!".
